

## FRT Style Sheet

### Front End Coding Style

- 4 tabs for each element indentation
- Use div for elements we want customization over
- No inline functions
- Brackets for every conditional statement and control flow
- No more than 79 characters per line
- Variable names are in *lowerCamelCase*

### Back End Coding Style

- Variable names are in *snake\_case*
- Brackets for every conditional statement and control flow
- No more than 120 characters per line
- Keep all audio files in .wav format

### UI Style

- Center Most object in parent div, and center divs on the webpage
- Use the Roboto Font for all text
- Keep all images in .png format
- Keep a Consistent Color Palette

#### Color Palette:

|           |                 |
|-----------|-----------------|
